

# Ecuador - Quito

## Global Youth Tobacco Survey (GYTS)

### FACT SHEET . . . . .

The Ecuador – Quito GYTS includes data on prevalence of cigarette and other tobacco use as well as information on five determinants of tobacco use: access/availability and price, environmental tobacco smoke exposure (ETS), cessation, media and advertising, and school curriculum. These determinants are components Ecuador could include in a comprehensive tobacco control program.

The Ecuador – Quito GYTS was a school-based survey of students in grades 1-3, conducted in 2001. A two-stage cluster

sample design was used to produce representative data for all of Quito. At the first stage, schools were selected with probability proportional to enrollment size. At the second stage, classes were randomly selected and all students in selected classes were eligible to participate. The school response rate was 100%, the student response rate was 96.3%, and the overall response rate was 96.3%. A total of 2755 students participated in the Ecuador – Quito GYTS.

#### Prevalence

- 52.1% of students had ever smoked cigarettes (Male = 62.1%, Female = 40.4%)
- 23.1% currently use any tobacco product (Male = 23.1%, Female = 15.5%)
- 18.1% currently smoke cigarettes (Male = 23.8%, Female = 11.1%)
- 9.7% currently use other tobacco products (Male = 11.7%, Female = 6.9%)
- 16.7% of never smokers are likely to initiate smoking next year

#### Knowledge and Attitudes

- 17.4% think boys and 15.2% think girls who smoke have more friends
- 8.5% think boys and 8.4% think girls who smoke look more attractive

#### Access and Availability - Current Smokers

- 18.0% usually smoke at home
- 55.3% buy cigarettes in a store
- 65.8% who bought cigarettes in a store were NOT refused purchase because of their age

#### Environmental Tobacco Smoke

- 35.6% live in homes where others smoke in their presence
- 52.6% are around others who smoke in places outside their home
- 80.7% think smoking should be banned from public places
- 62.4% think smoke from others is harmful to them
- 49.3% have one or more parents who smoke
- 13.0% have most or all friends who smoke

#### Cessation - Current Smokers

- 72.5% want to stop smoking
